PROFESSIONAL PROFILE

Motivated Software Engineering graduate candidate who has completed the BSc (Hons) Software Engineering programme at ICBT Campus, affiliated with Cardiff Metropolitan University, UK, and is currently awaiting final results. Holds a Higher Diploma (HD) in Computing and Software Engineering, with hands-on experience in full-stack web development, Android applications, database management, and AI-integrated systems. Skilled in React.js, Node.js, Java, Python, and SQL through academic and independent projects. Seeking an opportunity to contribute technical expertise and problem-solving skills as a Graduate Software Engineer.

TECHNICAL SKILLS

Languages: JavaScript, Java, Python, PHP, SQL, HTML5, CSS3, C++, C#

Frontend: React, Vite, Tailwind CSS, Three.js, Framer Motion | Backend: Node.js, Express.js, Flask, Java EE

Databases : MongoDB Atlas, MySQL, SQLite

FEATURED PROJECTS

Smart Oral Disease Detection & Dental Care Assistance(BSc Project)

TECH STACK React, Node.js, Express, Python Flask, MobileNetV3, MongoDB, Gemini AI

Built an AI-assisted oral health platform with image classification, multi-role access, consultation workflows and PDF reports.

GitHub - januuthayan1967-cloud/smart-oral-disease-detection · GitHub

Internship Finder Platform

TECH STACK React, Tailwind CSS, Express, MongoDB, WebRTC

Developed a recruitment platform with student, company and admin dashboards, internship applications, CV uploads and video interview integration.

https://github.com/januuthayan1967-cloud/internship-finder

LuxeVista Resort – Mobile Application

TECH STACK Java, Android Studio, SQLite, JUnit, Robolectric

Created an Android resort booking app with room and service reservations, local database persistence and PDF vouchers.

ADDITIONAL PROJECTS

Upcountry Warriors – Player & Team Management — Player and team management application. (C++, SQL)

The Paws Shop – Pet Supply Management — Pet supply management system. (Java, SQL)

FitZone Fitness Center – Gym Web Application — Gym website with reservation booking. (HTML, CSS, JavaScript, PHP, MySQL)

Full-Stack Portfolio Website — Deployed interactive portfolio with an administration dashboard and project galleries. (React, Three.js, Express, MongoDB Atlas, Cloudinary, Vercel)

Stellar Classification Using Machine Learning — Compared machine learning models for stellar-object classification and built a prediction interface. (Python, Scikit-learn, XGBoost, CatBoost, Flask)

Ocean View Resort Management System — Hotel booking and management system with administrative features and PDF billing. (Java EE, JSP, Servlets, JDBC, MySQL)

EDUCATION

BSc (Hons) Software Engineering (2026)
Coursework completed; final results pending

Higher National Diploma in Computing & Software Engineering (2025)
ICBT Campus

G.C.E. Advanced Level Physical Science (2021) | G.C.E. Ordinary Level (2018)

Additional TECHNICAL SKILLS

Additional: REST APIs, JWT authentication, WebRTC, Cloudinary, Vercel, JUnit, Robolectric, Machine Learning

DEVELOPMENT TOOLS

Git & GitHub, Visual Studio Code, Android Studio, Visual Studio, NetBeans, WAMP, Jupyter Notebook, Google colab, phpMyAdmin

SOFT SKILLS

Problem-solving, Fast learning, Leadership, Time management, Communication

LANGUAGES

Tamil, English
